

# 0-220v adjustable inverter

## Overview

---

What is a 0.4kw frequency inverter?

0.4kw frequency inverter for sale, convert single phase to three phase for AC motor speed controls, rated current 3A, input frequency 50Hz~60Hz, and output frequency 0Hz~1000Hz. With an IP20 enclosure rating and RS485 communication mode, the inverter can work at (-10°C, 40°C).

What is a single phase output frequency inverter?

The single phase output frequency drives are widely used to control the speed of motors in various equipment such as pumps, ventilation systems, elevators, machine tool drives, etc. 0.75kW single phase output frequency inverter for sale, 1-phase input to 0~input voltage 1-phase output at 220V/230V/240V.

What is the speed adjustment range of a variable frequency inverter?

With a start frequency of 0.4Hz~20.00Hz, the inverter's speed adjustment range reaches 1:50. By changing the frequency and voltage supplied to the motor, the variable frequency inverter can achieve stepless speed regulation of the motor.

What is a 1 hp inverter?

1hp (0.75kw) frequency inverter, single phase 120v input, 1 phase and 3 phase 220v output. Come with a V/F control mode, the variable frequency drive inverter drives 1ph/3ph AC motor with 120v power supply, and offers an RS485 communication interface.
