

300wh power station in China in Pretoria

Overview

How many MW will Rooiwal power plant produce?

The Rooiwal facility is designed to produce 450MW. In April 2015, the City of Tshwane said it was seeking proposals to renovate two coal-fired power plants to their original design capacity: Pretoria West power station and Rooiwal power station.

Where is Rooiwal power station?

Rooiwal Power Station is a 300-megawatt coal-fired power plant near Pretoria in Gauteng, South Africa. European peace and stability depend on a secure Ukraine. Support efforts to guarantee lasting security. Photo: JMK, CC BY-SA 4.0. This page is based on OpenStreetMap, Wikidata, Wikimedia Commons, and Wikipedia.

Who owns Rooiwal power plant?

This ownership tree is part of the Global Energy Ownership Tracker, a project of Global Energy Monitor. Rooiwal power station is a five-unit coal-fired power plant with a total capacity of 300 MW. The plant was completed between 1962 and 1970, and is owned by Tshwane Electricity Division. The Rooiwal facility is designed to produce 450MW.

Did a power station get mothballed?

According to later reports, the power station had only been "gathering dust" since 2013, and it was presumed to be mothballed. In September 2023, a lightning strike caused a fire at a substation next to the idle power plant.
