

30kva-solar container system in Mumbai India

Overview

How much does a 30kW Solar System cost in India?

1. □ How much does a 30kW solar system cost in India in 2025?

The average cost of a 30kW on-grid solar system in India ranges from ₹15 lakhs to ₹18 lakhs (before subsidy). Prices may vary slightly depending on panel quality, inverter brand, installation location, and structure type.

What are the different types of 30 kW solar system in India?

The three main types of a 30 kW solar system in India are on-grid solar systems, off-grid solar systems, and hybrid solar systems. Out of these three types, on-grid rooftop solar is the most economical option, with a payback period of ~1.5 years for a 30 kW solar system.

How much does a solar system cost in India?

Additional components include a battery storage system, inverter, wire, and others. On average, a 30kW solar system panel price in India is anywhere from 13,00,000 to Rs. 38,00,000 INR or more. You can also get government incentives or rebates to offset the financial burden of going solar.

How much is 30 kW solar system subsidy in India?

The 30 kW solar system subsidy in India for hybrid rooftop systems is Rs. 5.40 lakh. *Please note: The above-mentioned 30 kW solar system price list is indicative as of 27th August 2025 for the SolarSquare's Blue 4-8ft variant.
