

# Amsterdam Emergency Energy Storage Power Supply

## Overview

---

Is dispatch grid services the Netherlands' largest battery energy storage system?

Amsterdam's acclaimed battery storage solution provider, Dispatch Grid Services, has kicked off the construction of the Dordrecht 45MW/90MWh Battery Energy Storage System (BESS). This project is poised to overtake the 30MW/68MWh Pollux project by SemperPower, claiming the title of the Netherlands' largest independent BESS.

What is the largest European energy storage system?

AMSTERDAM – Today the largest European energy storage system using second-life and new electric vehicle batteries in a commercial building was made live. Amsterdam Alderman Udo Kock conducted the official opening ceremony.

Will Amsterdam Energy Arena BV use its own energy?

"Thanks to this energy storage system, the stadium will be able to use its own sustainable energy more intelligently and, as Amsterdam Energy Arena BV, it can trade in the batteries' available storage capacity," said Henk van Raan, director of innovation at the Johan Cruijff Arena.

What is an emergency power system?

Safety and Independence: Emergency power systems are often dedicated to supporting life safety systems, including emergency lighting for egress, fire pumps, sprinkler systems, and fire alarm systems, ensuring that these critical functions remain operational during a power outage.
