

Battery Energy Storage in North Africa

Overview

What is the future of energy storage in South Africa?

This is according to a new report by the World Bank which says that over the next five years SA is expected to show rapid growth in energy storage demand. The rise in demand will come from the transformation of the energy system to include more renewables and developing demand in the electric vehicle (EV) sector.

Where is the Battery Centre in South Africa?

The Battery Centre is located at 240 Beyers Naude Dve, Blackheath, Gauteng, 2195, South Africa, Randburg. There is another location at 191 Bram Fischer Dve, Gauteng, 2194, South Africa, Randburg.

Does Scatec have a solar-plus-storage site in South Africa?

Scatec's Kenhardt solar-plus-storage site in South Africa (above), which went online at the end of 2023. Image: Scatec. Africa's energy storage market has seen a boom since 2017, having risen from just 31MWh to 1,600MWh in 2024, according to trade body AFSIA Solar's latest report.

What are the most popular solar-plus-storage developments in Africa?

As noted by AFSIA Solar, one of the most notable solar-plus-storage developments in Africa is Norway-based independent power producer (IPP) Scatec's 225MW/1,140MWh Kenhardt project in South Africa. The site started operation in late 2023 (pictured above).

Battery Energy Storage in North Africa

Spotlight on Africa: A continent of contrasts in energy storage

In our ongoing Spotlight series on battery energy storage, we now turn our attention to Africa. While attempting to cover this vast continent in a single article is basically ...
