

Battery energy storage box processing in North America

Overview

Is the lithium-ion energy storage battery manufacturing industry growing?

The confluence of these trends in employment, sales, prices, imports, and exports likely indicates the growth of the lithium-ion energy storage battery manufacturing industry in the United States in recent years.

Which segment dominates the North American battery storage system market?

The utility segment dominates the North American battery storage system market, commanding approximately 82% of the total market share in 2024, while also exhibiting the strongest growth trajectory with a projected growth rate of around 9% from 2024 to 2029.

Do federal agencies collect data on lithium-ion energy storage batteries?

The federal agencies that collect and publish data on prices, sales, employment, production, imports, and exports of batteries do so at an aggregation, periodicity, or quality that may not provide sufficient visibility to monitor the advanced lithium-ion energy storage battery industry.

How many battery energy storage systems are being built in Texas?

October 2024: RWE began constructing three battery energy storage systems (BESS) in Texas, increasing their total projects under construction to 931 MW across California, Texas, and Arizona. The Crowned Heron 1, Crowned Heron 2, and Cartwheel 1 projects in Texas will collectively provide 450 MW of power capacity and 900 MWh of storage capacity.
