

# **Budget Proposal for a 10kW Solar Containerized Shipboard**

## Overview

---

How long does it take to ship a solar container?

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks. Customized configurations can take up to 8-10 weeks, with shipping times varying by destination. Do you offer after-sales support for mobile solar PV containers?

.

Why should you choose LZY solar panels on shipping container?

Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability. Sensitive solar arrays can be effectively protected from storms, vandalism and all possible threats. What is LZY's mobile solar container?

.

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

What is LZY mobile solar container system?

LZY Mobile Solar Container System - The rapid-deployment solar solution with 20-200kWp foldable PV panels and 100-500kWh battery storage. Set up in under 3 hours for off-grid areas, construction sites & emergency power. Get a quote today!
