

Buenos Aires Bonded Energy Storage Project

Overview

Can battery energy storage modernize the grid in Argentina?

The Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico) confirming the submission of 27 project proposals from 15 companies under its AlmaGBA program.

Does Argentina have a battery storage tender?

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage capacity in the Buenos Aires metropolitan area. The AlmaGBA program, managed by CAMMESA, offers long-term contracts with fixed payments and financial guarantees to attract developers.

How many MW of battery energy storage will be deployed in Buenos Aires?

The initiative aims to deploy 500 MW of battery energy storage systems (BESS) in the Greater Buenos Aires Area (GBA), but the submitted capacity has far exceeded expectations—reaching a combined 1,347 MW.

How much will Buenos Aires invest in storage capacity?

The Argentinean authorities plan to install the new storage capacity in critical nodes of the metropolitan area of Buenos Aires, with an estimated investment of \$500 million and an execution period of between 12 and 18 months. From pv magazine Latam
