

China solar power with grid backup distributor

Overview

Who is Guangdong xindun power technology?

Lithium battery, 192,400AH Established in 2006 year, Guangdong XINDUN Power Technology is a high-tech company with R & D, manufacturing and providing solar solution service, solar system kit, solar inverter, solar controller, solar batteries, solar panels with good quality and reasonable price.

What makes an off-grid solar system kit different?

Every off-grid solar system kit we build is designed and tailored to the needs of each customer. While they are operationally similar, componentry, capacities and configurations may differ from system to system to ensure customer needs are met.

What is an off grid solar kit?

Experience energy independence with our off grid solar kit, delivering seamless integration of solar panels, combiners, batteries, solar controllers and inverters for reliable power generation in off grid scenarios.

Where are xindun solar products made?

China's source manufacturer, solar products are exported to more than 100 countries and regions around the world. Xindun's solar system have been a game-changer for our solar energy projects in Japan. Their technology and products have optimized energy generation, allowing us to tap into the abundant solar resources of this beautiful country.
