

Columbia Energy Storage Project

Overview

What is the Columbia Energy Storage Project?

The Columbia Energy Storage Project will feature Energy Dome's standard-frame 20MW/200MWh CO₂ Battery, powering around 18,000 homes in Wisconsin for 10 hours on a single charge. It aims to set a benchmark for other utilities and energy providers seeking to boost their storage solutions and cut carbon emissions.

Where can I find information about energydome?

For more information, please visit energydome.com. Alliant Energy Corporation (NASDAQ: LNT) provides regulated energy service to 1 million electric and 425,000 natural gas customers across Iowa and Wisconsin.

When will energy dome's first-of-a-kind CO₂ battery plant be completed?

In parallel, the construction of Energy Dome's first-of-a-kind standard CO₂ Battery plant in Sardinia, Italy, is also proceeding at full speed. The Sardinia plant's completion is expected by the end of Q1 2025 after reaching full notice-to-proceed at the end of 2023, representing Energy Dome's capability to deliver on a short lead time basis.
