

Communication BESS power station 300kva

Overview

What is Sunway ESS battery energy storage system (BESS)?

Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects.

What is a battery energy storage system (BESS)?

Communication and intelligent networking are key to an efficient Battery Energy Storage Systems (BESS) as they combine components from many different vendors and are themselves part of a networked smart grid. HMS solutions enable communication inside Battery Energy Storage Systems and integration into a wide range of applications.

What is a containerised energy storage system (BESS)?

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes. For installation manual, technical datasheet, inverter adjustment/testing or configuration, please send us inquiry.

What is the most innovative communication standard for power system communication?

First, applicable communication standards are investigated and especially the usage of IEC 61850 as the most innovative standard for power system communication is analyzed according to the needs for BESS (Section II).
