

Customer Support for Low-Pressure Mobile Energy Storage Containers in Poland

Overview

What is Poland's energy storage subsidy?

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

Does Poland need a state aid package for energy storage?

A panel discussion on the Polish market at the recent Energy Storage Summit CEE in Warsaw. Image: Solar Media The European Commission (EC) has approved a €1.2 billion (US\$1.32 billion) state aid package for Poland to support the deployment of electricity storage facilities.

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion).

How can energy storage support Poland's electricity system?

By addressing challenges such as peak load balancing and frequency regulation, energy storage enhances the resilience and flexibility of Poland's electricity system. The storage support program is expected to begin accepting applications in the second quarter of 2025. Full details and deadlines will be published by the NFOŚiGW.
