

Cylindrical solar container lithium battery set sorting machine

Overview

How does a battery sorter work?

The battery sorter machine has 8 channels for OK battery cells and 1 for NG battery cells, which greatly promote the sorting efficiency and ensure the normalization of cells sorting. While operating, the cells will be loaded and stored away by hands, which realizes the sorting automation.

What are the advantages of automatic battery cell sorting machine?

The automatic battery cell sorting machine actuator adopts servo motor control, which is accurate and stable; the electric control part of the device adopts module design, which is high in integration level, good in versatility and high in reliability. 3. High productivity.

What are the advantages of Hioki 3561 battery sorting machine?

1. High precision and consistency The automatic battery cell sorting machine adopts HIOKI 3561 battery tester to execute voltage and resistance measurement by four-wire-system method, which is high in precision and consistency. The repeated test error of voltage is within $\pm 0.3\text{mV}$ and that of internal resistance is within $\pm 0.3\text{ m}\Omega$.

Cylindrical solar container lithium battery set sorting machine

Automatic Battery Cell Sorting Machine for Cylindrical Lithium Battery

Product description: The automatic battery cell sorting machine is professional designed for the sorting test of 18650 cylindrical lithium battery cells which have completed the capacity sorting ...

[Learn More](#)

[China Lithium Cell Sorting Machine Manufacturers](#)

Lithium cell sorting machine can automatically sort the batteries according to the specified requirements, and has the characteristics of rapid and accurate sorting. Auto sorting ...

[Learn More](#)

[Automatic Cylindrical Battery Sorter Sorting ...](#)

The data can be saved permanently and downloaded and extracted. 3?Large hopper, 500 pcs can be put in one time, high production efficiency, application scope: cylindrical lithium battery (customizable). 4?12 ...

[Learn More](#)

[Cylindrical Battery Sorting Machine for ...](#)

11 Channel Automatic Cylindrical Battery Sorting Machine for Battery Pack Assembly Line, suitable for kinds of cylindrical batteries such as 18650 and 26650, 32650, 21700 cells. 1?With high precision internal resistance, ...
