

Eastern European Solar Onsite Energy Brand Ranking

Overview

Who are Europe's leading solar companies?

1. Enel Green Power (Italy) The Italian energy giant continues to dominate Europe's solar landscape with massive projects across Spain, Italy, and Greece. Their €5.2 billion investment in bifacial panel technology with integrated tracking systems positions them at the industry forefront.

What is the Brand Leadership & Sustainability Rating – Europe?

To meet this need for multi-dimensional evaluation, EUPD Research developed the Brand Leadership & Sustainability Rating – Europe, which assesses solar PV, inverter and storage companies across four weighted criteria:.

Which countries have the most solar power in Europe?

Italy is experiencing similar trends, having installed over 6.7 GW last year, with more than 70% of this capacity coming from the C&I (20 – 5,000 kW) and utility (>5,000 kW) segments. Other leading European PV markets, including Spain and Poland, are following suit.

How big is Europe's solar market?

The European solar market is experiencing unprecedented growth, with installations projected to reach 87GW annually by 2025. Driven by the REPowerEU plan and ambitious carbon neutrality targets, the continent is accelerating its transition to renewable energy.
