

Fiji Foldable Container Off- Network Payment Method

Overview

What payment systems are used in Fiji?

Common manual payment systems in Fiji are cash and cheque payments. Electronic payment systems in Fiji include internet banking portals, automated telling machines, EFTPOS, mobile wallets, gift vouchers and debit and credit cards. For cheque payments, commercial banks exchange cheques with each of the other banks in the Clearing House daily.

Is cash a payment instrument in Fiji?

While cash is an important payment instrument that people use in their daily lives to purchase goods and services, other payment instruments are also available and widely used. All payment systems in Fiji are regulated and supervised by the Reserve Bank of Fiji.

What are some examples of mobile money services in Fiji?

Examples of mobile money services in Fiji are Vodafone's M-Paisa and Digicel Mobile Money. Fast, reliable and efficient mobile payments may be made at any time of the day. Convenient for making payments to and receiving payments from people in remote areas. Available in any part of the country where there is network coverage.

What is fijiclear payment system?

This system typically processes high value critical payments. It is an essential payment system which ensures the smooth functioning of the economy and the financial system. If this system fails, it could trigger disruptions or transmit shocks within the economy. Currently, all banks in Fiji use FIJICLEAR to make large value payments.
