

Financing for Polish Mobile Energy Storage Container Two-Way Charging

Overview

Can Poland co-finance electricity storage facilities?

Poland's National Fund for Environmental Protection and Water Management (NFOŚiGW) has opened a call for applications to co-finance electricity storage facilities, with funding from the Modernisation Fund. The programme has a total budget of \$1.02 billion and aims to improve grid stability and renewable energy use.

What is Poland's energy storage subsidy?

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion).

How can energy storage support Poland's electricity system?

By addressing challenges such as peak load balancing and frequency regulation, energy storage enhances the resilience and flexibility of Poland's electricity system. The storage support program is expected to begin accepting applications in the second quarter of 2025. Full details and deadlines will be published by the NFOŚiGW.
