

French container energy storage BESS manufacturer

Overview

Who is delivering a battery energy storage system in France?

China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France. The project represents Envision's first independent storage contract in the French market and signals its continued European expansion.

Will Envision Energy deploy a 120mw/240mwh Bess in France?

Envision Energy will deploy a 120MW/240MWh BESS in France for Kallista Energy, using locally-made LFP battery cells from AESC.

What is Envision Energy's first independent battery energy storage contract in France?

After previous triumphs in Europe, this project represents Envision Energy's first independent battery energy storage contract in France. Envision Energy will provide a minimum of a 14-year long-term maintenance (LTSA) agreement, starting construction in June 2025, ensuring ongoing presence in the area once the construction phase is complete.

How much electricity can a battery store in France?

With a size of 35 MW and a capacity of 44 MWh, the battery system will store as much electricity as around 10,000 people consume every day in France. The 24 battery containers were commissioned in 2024 as one of the largest energy storage systems in the country. Optimizing green energy synergy
