

High quality isolator breaker in Uk

Overview

What is isolator circuit breaker?

Isolator Circuit breaker is used for isolating the load from the source completely. It is an off load manual device. It has slightly less current capacity than circuit breakers. It provides a visual confirmation of an open circuit & a necessary precaution during maintenance. Lightning Arrester / Surge Protector.

What is a double break isolator?

A double break isolator is also one for single-phase circuits; however, such isolators are specifically made to isolate the transmission lines and the circuit breakers when maintenance work is to be held. Such isolators work with a knife-blade or rotary methods to perform their purpose.

Where can I buy a DC isolator switch and DC circuit breaker?
