

How long does the uninterruptible power supply provide power

Overview

Why should you use an uninterruptible power supply (UPS)?

With an uninterruptible power supply (UPS), you can save your project from disaster. We'll tell you exactly why and when to use a UPS, then break down which type best fits your needs. What is an Uninterruptible Power Supply?

.

How long do uninterruptible power supplies last?

Most uninterruptible power supplies have a lifespan of around 3-5 years (which the warranty will normally cover) and after that they're toast. This lifespan can be even shorter if you use the battery backup frequently. You can buy replacement batteries direct from the manufacturer and replace them yourself, extending the lifespan of the product.

How long does a ups last during a power outage?

The runtime of a UPS during an outage can range from several minutes to hours, based on a variety of factors. When recommending a UPS solution at Comnet Systems, we never forget to consider the following key variables: 1. Battery Capacity.
