How much does a 50kW collapsible container cost at an Australian port

Overview

How long does a 50kw Solar System last in Australia?

Most 50kW solar systems in Australia have an average payback period of 4 years. However, depending on your location and energy consumption patterns, the system may pay back in as short as 3 years, or extend to around 5 years. The more energy you consume from your 50kW solar system, the faster it will pay itself back.

How much does a 50 kW solar system cost in Australia?

Across Australia the most recent Commercial Solar Price Index (May 2025) shows turnkey 50 kW installations ranging AU $46,400 – AU $57,170 depending on city, with a national mean of AU $51,420 (≈ $0.95 /W). Sydney records the lowest current outlay (AU $46,400) while Perth is highest (AU $57,170).

How much does a 20 ft container cost?

A 20ft container in pristine condition may be priced between $3,000 and $5,000, while a 40ft container could range from $5,500 to $8,000. Pre-owned containers offer a considerable cost advantage, with prices ranging from $1,500 for a standard 10ft model to approximately $3,500 for a larger or better-condition 40ft container.

How much does a pre-owned container cost?

Pre-owned containers offer a considerable cost advantage, with prices ranging from $1,500 for a standard 10ft model to approximately $3,500 for a larger or better-condition 40ft container. Opting to rent a container can provide a budget-friendly answer for short-term requirements.
