

How much does a home solar light cost in San Diego

Overview

What is the cost of solar panels in San Diego?

As of August 2024, the average solar panel system costs \$2.36/W including installation in San Diego, CA. For a 5 kW installation, this comes out to about \$11,800 before incentives, though prices range from \$10,030 to \$13,570. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

Are solar panels a good investment in San Diego?

Solar panels are worth it in San Diego, CA. Factors like the cost of electricity, incentives, climate, and the angle of your roof impact how quickly you'll break even on your investment compared to other areas in the U.S.

How much does a 5 kW solar system cost in San Diego?

In San Diego, CA, a 5 kW solar system costs \$11,800.

How much do solar panels cost?

This is lower than the average price of residential solar power systems across the United States which is currently \$3.00 per watt. The size of a solar panel system also plays a role in how much the installation will cost. Larger solar installations will typically have a lower cost per watt, because the panels can be purchased at a 'bulk price'.

The Amount of Electricity Your Home Uses
The Type of Solar Panels You Buy
The Quality of Your Solar Installation
Federal, State, and Local Solar Incentives
Homes that use more electricity will

need more solar panels to cover their energy needs. Although solar panels do get cheaper on a per-watt basis, the overall cost of the system will increase as more panels are added. However, the higher a home's energy usage, the more solar panels can save homeowners energy bills. See more on solarreviews Palmetto
