

# How much does the brand solar panel in Marseille cost

## Overview

---

Are solar panels a good investment in France?

As electricity prices continue to soar in France - up 60% in four years - more people are turning towards solar panel kits, which promise to help users save on energy costs and installation prices. The estimated extra cost of electricity in 2024, compared to 2020, is €540 per household per year.

How much does a solar panel cost?

Instructions usually say that it is best to weigh the panels down to ensure they can withstand wind and inclement weather, and to tilt them at 15-20 degrees in summer, and at 35-45 in winter. Popular 'plug-and-play' systems include: Beem Kit 420W. Peak power: 420 Wp. Average yearly production: 500 kWh. Price: €699. Sunology PLAY.

Can a solar savings estimate be misleading?

A solar savings estimate will be misleading if it assumes a solar system that will not even fit on your home. Our calculator automatically places panels on your roof and adjusts the production estimate to the tilt angle, azimuth and shading of the best location for each array of panels on your roof.

How much does solar energy cost in 2024?

The estimated extra cost of electricity in 2024, compared to 2020, is €540 per household per year. Combined with rising inflation, and increased fuel and food costs, this has prompted some to make the switch to solar energy.
