

Huawei Communications Green Base Station Latest

Overview

Why are Huawei antennas Green?

This is a recognition of Huawei's breakthroughs in boosting efficiency, performance and integration of base station antennas. Huawei green antennas have enabled operators worldwide to simplify 5G construction while maximizing energy efficiency and connection performance, in a manner that supports future network evolution.

Why did Huawei win the GSMA 'best mobile network infrastructure' award?

[Barcelona, Spain, February 28, 2024] At MWC Barcelona 2024, Huawei's green antenna series won the GSMA Global Mobile (GLOMO) 'Best Mobile Network Infrastructure' award. This is a recognition of Huawei's breakthroughs in boosting efficiency, performance and integration of base station antennas.

Will China Telecom upgrade base stations in 2024?

In Anhui Province, for example, the China Telecom branch plans to upgrade 700 base stations with low-carbon retrofits in 2024 and selectively implement an active deep sleep system for base stations across the province at night to reduce the cost of purchased power.

Is Huawei a sustainable company?

Huawei is the first in the industry to launch eco-friendly, high efficiency and green antennas, leading the industry's transition to sustainable development.
