

Huawei Southeast Asia Portable Energy Storage Power Supply

Overview

What can Huawei do with Keppel?

“Through this partnership, we will harness Huawei’s digital power technologies and Keppel’s deep expertise in energy infrastructure,” she said. Other projects include low-carbon data centres and industrial parks. Read more at [straitstimes.com](https://www.straitstimes.com).

Why is Huawei partnering with Singapore?

The partnership aligns with global sustainability targets and supports Singapore’s Green Plan 2030. According to Maxi Wang, CEO of Huawei International, the initiative reinforces Singapore’s leadership in the global green economy, meets rising demand for renewable energy, and helps reshape the future of energy innovation.

Does Keppel have a partnership with Huawei?

In a joint statement released on May 13, Keppel revealed that the two companies have signed a Memorandum of Understanding (MoU). The first initiative under the partnership will be a demand response program in Singapore, combining Keppel’s energy storage systems with Huawei’s digital technology capabilities.

What will Huawei and Keppel do with the Bess?

“The Bess will allow Huawei and Keppel to further explore novel smart operations and maintenance solutions to enhance the reliability, performance and efficiency of renewable energy assets,” said the companies, adding that they will co-develop go-to-market strategies beyond Singapore.
