

Hungarian Pec Repair Tool Battery

Overview

Are NiCad batteries good for power tools?

My batteries were NiCad, which have an undesirable property of having something called 'memory' (Otherwise, they are a very good battery for use in Power Tools because they can charge fast and are powerful). NiCad batteries can't handle nearly the same capacity as NiMh, but they don't last as long.

Does PEC have a service centre in Germany?

Besides these new manufacturing locations, PEC is also opening a new service centre in the south of Germany. 2019 PEC wins several new contracts in Automated Cell Finishing for large format automotive grade cells, including the UK's Battery Industrialisation Centre (UK BIC).

What kind of battery do you use for power tools?

Typically you will have NiMh, or NiCad, but there are many others, like Lithium Ion. My batteries were NiCad, which have an undesirable property of having something called 'memory' (Otherwise, they are a very good battery for use in Power Tools because they can charge fast and are powerful).

Why did PEC retool its equipment?

In 2016, PEC retooled its equipment to accommodate prismatic cells, which remain in daily use and have operated flawlessly for over 14 years. Over the years, PEC has continued to install numerous automotive-grade cell finishing lines, refining and upgrading its standard solutions for OEMs and tier-one automotive suppliers like JCI.
