

Hungarian microinverter brand ranking

Overview

Who makes the best microinverter?

Enphase Energy and APsystems are the most well-known microinverter manufacturers, while ZJBeny, Hoymiles & ZJ Beny recently entered the increasingly competitive market. The latest models added in 2024 are the new 3-phase IQ8-3P series from Enphase, the new SAJ M2 Series, and the NEO 2000M-X quad micro from Growatt.

What is the global solar microinverter market value?

The global solar microinverter market reached a value of US\$ 231 Million in 2021. Solar microinverters refer to electronic devices used in photovoltaics to convert the direct current (DC) generated by solar panels into alternating current (AC).

What are the most popular microinverters available in Australia?

Below is our detailed comparison of the most popular microinverters available in the Australian, European, Asian and US markets. Enphase Energy and APsystems are the most well-known microinverter manufacturers, while ZJBeny, Hoymiles & ZJ Beny recently entered the increasingly competitive market.

Which companies dominated the global inverter market?

Huawei's inverter segment also delivered an outstanding performance, with the two companies dominating the global market by a wide margin. Other enterprises, such as TBEA, Senenergy, Deye and Ginlong (Solis), followed closely behind.
