

# Hydrogen Energy Base Station

## Overview

---

What is the largest hydrogen refueling station in the world?

Notably, Hypower, the hydrogen refueling station in the Daxing International Hydrogen Energy Demonstration Zone has cemented its position as the largest of its kind worldwide.

What is the International Hydrogen Energy Valley?

The International Hydrogen Energy Valley in Shanghai's Lingang Special Area aims to exceed a 20-billion-yuan scale in the hydrogen fuel cell industry by 2025. It seeks to become a world-class fuel cell vehicle innovation center and an industrial hub supporting Lingang Special Area's pioneering zone for hydrogen energy development.

What is Daxing international hydrogen energy demonstration zone?

Daxing International Hydrogen Energy Demonstration Zone has been awarded the distinction of a high-quality industrial park. Hydrogen fuel has earned its place as the "ultimate energy source for the 21st century".

What is the goal of a hydrogen fuel cell Valley?

The goal of the valley is to surpass a 20-billion-yuan (\$2.82 billion) scale in the hydrogen fuel cell industry by 2025, essentially covering the entire industry chain of core components for hydrogen fuel cell vehicles and hydrogen energy equipment.
