

Japan Osaka Solar Lighting Power System

Overview

Where will solar power be installed in Japan?

Under this agreement, solar power generation systems will be installed at Kansai International Airport and Osaka International Airport. With a total capacity of approximately 23.4 MW, this will be one of the largest onsite PPAs in Japan *1. ORIX will begin supplying power to the airports in the spring of 2025.

Does Orix have a power purchase agreement with Kansai Airports?

TOKYO, Japan - November 15, 2023 - ORIX Corporation ("ORIX") announced today that it has signed a power purchase agreement (PPA) with Kansai Airports. Under this agreement, solar power generation systems will be installed at Kansai International Airport and Osaka International Airport.

How will solar panels be installed at Inakagurashi plant?

At the plant, solar panels will be installed over agricultural land where crops (pasture grass) are grown while power is generated. Inakagurashi Co., Ltd. will be in charge of cultivating and harvesting the pasture grass and supplying it as feed for livestock to nearby stock farms.

How many solar power plants does Orix own?

ORIX operates approximately 950 MW of renewable energy power generation businesses in Japan, and owns/operates approximately 100 land-based and 300 rooftop solar power generation systems *2.
