

Lisbon China solar Glass

Overview

Which country exports 80% of solar PV?

China's exports account for 80% of global solar PV exports. Full details available in Ember's China Solar Export Methodology. The IEA has stated that China's solar photovoltaic exports account for 80% of the global market.

Where is Ember's China Solar Exports dataset sourced?

Ember's China solar exports dataset is sourced from the General Administration of Customs of the People's Republic of China (GACC): Prior to 2022, assembled and non-assembled cells are not disaggregated into separate commodity codes in GACC reporting. The commodity code used is 85414020 (Solar cells).

What is China's solar export method?

Full details available in Ember's China Solar Export Methodology. The IEA has stated that China's solar photovoltaic exports account for 80% of the global market. While there is a wide variety of products that make up the solar supply chain, panels, cells and wafers make up the majority of exports by trade value, and can be expressed in GW terms.

Why does Ember track China Solar Exports?

Ember tracks these products to give a clearer picture of the global solar supply chain. Ember's China solar exports dataset is sourced from the General Administration of Customs of the People's Republic of China (GACC): Prior to 2022, assembled and non-assembled cells are not disaggregated into separate commodity codes in GACC reporting.
