

Malawi Electric Power Station Energy Storage Project

Overview

How has Malawi reformed its energy sector?

Since attaining independency in 1964, Malawi has gone through a number of power reform options in order to liberalize its energy sector. This started with corporatization, contract management, unbundling and setting up of regulatory authority. All these reforms involved the amendment of electricity laws through the National Assembly.

What is the energy sector support project for Malawi?

The Energy Sector Support Project for Malawi is a USD 84.7 million loan agreement approved by the World Bank in 2011. It aims to increase the reliability and quality of electricity supply in the major load centres.

Who supplies electricity in Malawi?

Malawi's electricity is powered by EGENCO through the Electricity Supply Commission of Malawi (ESCOM) main electricity grid. The National.

What happened to the Electricity Supply Commission of Malawi?

Following the repeal of the 1963 Electricity Act, the Electricity Supply Commission of Malawi was corporatized in July 1998 and the utility was renamed Electricity Supply Corporation of Malawi . This led the utility to enforce revenue collection, increase tariff levels and its separation from the ministry.
