

Medical Uninterruptible Power Supply Supplier

Overview

What is a medical-grade uninterruptible power supply (UPS) system?

Our medical-grade uninterruptible power supply (UPS) system secures seamless backup power and protects your equipment from damage. These solutions will instantly switch your system to a backup power supply with no lapses, preventing dire consequences during medical procedures.

What is an uninterruptible power supply?

Uninterrupted power supplies have two primary roles — to provide backup power as quickly as possible and to protect the equipment from potential quality issues caused by sudden outages. Our uninterruptible power supply equipment efficiently does both to ensure you can carry on with your tasks without delay.

What is a medical grade UPS system?

This UPS (uninterruptible power supply) Systems provide full DIN EN 60601-1 compliance while providing reliable battery backup and surge/line noise protection for sensitive medical equipment such as respirators and EKG machines, as well as computers and imaging equipment. Medical-Grade UPS Systems.

Does Tripp Lite have a medical-grade UPS system?

Tripp Lite's SMX700HG medical-grade UPS system provides dependable battery backup and is fully compliant with IEC 60601-1 regulations when plugged into a hospital-grade outlet, making it ideal for use in patient-care vicinities.
