

Namibia Distributed solar Inverter Plant

Overview

Why should Namibia invest in a mega solar project?

This mega solar project will support Namibia's efforts to enhance its renewable energy infrastructure and is expected to greatly contribute to the country's general electricity supply security and also its sustainability goals.

Did NamPower sign an EPC contract with China?

NamPower, on Monday did signing on the engineering, procurement, and construction (EPC) contract with a Chinese joint venture for the development of Namibia's Largest Solar Plant project, the 100MW Rosh Pinah Solar PV Power Plant.

Why should we invest in a solar PV plant?

Additionally, the project will also assist in both addressing and supporting the renewable energy commitments prescribed in the Renewable Energy Policy and National Energy Policy, he said, adding that the PV plant will also play a pivotal role in transitioning towards low carbon and environmentally sustainable energy system.
