

# **Namibian Solar Container Fixed Financing**

## Overview

---

Will Namibia's Rosh Pinah project be able to generate solar power?

NamPower said the project site near the southern town of Rosh Pinah offered “excellent” conditions for solar generation, while its proximity to Namibia’s main power network meant additional investment would not be needed to connect the project to the grid.

How much solar power does Namibia have?

Its latest statistics show that Namibia added no new PV capacity last year, leaving its cumulative installed solar capacity at 170 MW as of 2022. How much will a NAD loan cover the Rosh Pinah solar project?

The NAD 1.3 billion (\$72.6 million) loan will cover 80% of the solar project’s costs. State-owned utility NamPower has extended the capacity of its Rosh Pinah solar project in Namibia from 70 MW to 100 MW. It will be the largest solar park in the nation once it is operational. Rosh Pinah is a mining town in the southern part of the country.

How much will Namibia's Rosh Pinah project cost?

Namibia Power Corp. (NamPower) has secured a loan from German state-owned development bank KfW to expand the planned Rosh Pinah project in Namibia from 70 MW to 100 MW. The NAD 1.3 billion (\$72.6 million) loan will cover 80% of the solar project’s costs.
