

North America v90 solar power generation system

Overview

How will the North America solar photovoltaic (PV) market grow?

The North America Solar Photovoltaic (PV) Market is expected to grow at a CAGR of more than 20% over the forecast period. Over the long term, factors such as increased environmental awareness and regulations and decreased cost per kilowatt of electricity generated from solar energy are expected to boost the market.

How big is the North America solar PV market?

The North America solar PV market size crossed USD 29.3 billion in 2023 and is projected to observe around 6.2% CAGR between 2024 and 2032, due to higher usage to power various electrical devices or fed into the grid for broader distribution.

Who are the key players in the North America solar photovoltaic (PV) market?

The North America Solar Photovoltaic (PV) Market is fragmented. Some of the key players in this market (in particular order) are Hanwha Q Cells Co., Ltd., Canadian Solar Inc., Jinko Solar, First Solar, Inc., and Trina Solar Limited.

What is the future of solar PV?

In addition, ongoing innovations and product advancements comprising of higher efficiency solar cells, bifacial panels, smart inverters, and energy storage integration will propel the business scenario. Looking for region specific data?

U.S. solar PV market revenue to cross USD 68.5 billion by 2032.
