

Oman Hybrid Energy Company 5g base station

Overview

What is 5G power & iEnergy?

Fully meet the requirements of rapid 5G deployment, smooth evolution, efficient energy saving, and intelligent O&M. Including: 5G power, hybrid power and iEnergy network energy management solution. 5G power: 5G power one-cabinet site and All-Pad site simplify base station infrastructure construction.

What is a 5G solar power platform?

Hybrid power: On the basis of 5G power platform, solar power is smoothly introduced. In areas with good grid, the solutions upgrade smoothly among grid, solar hybrid and pure solar power to achieve low-carbon and zero-carbon.

What is the difference between 5G power one-cabinet site and all-pad site?

5G power: 5G power one-cabinet site and All-Pad site simplify base station infrastructure construction. From the indoor station to the outdoor station, it is further developed to All-Pad site. In this case, the equipment room is changed into cabinets, multiple cabinets are changed into one cabinet, and one cabinet is changed into Pad.
