

Outdoor base station cable tie binding

Overview

What is a 3m cable ties mounting base?

Mounting bases are ideal for use with miniature, intermediate and standard cable ties and are designed to keep your wire or cable bundles organized in narrow spaces. 3M™ Cable Tie Mounting Bases are available in UV weather-resistant black for indoor and outdoor use, and natural or beige for indoor use.

What is a cable tie Mount & base?

Cable tie mounts and bases are attached to a flat surface and used in combination with a cable tie to support bundles of wires. The cable tie threads through the slot and is secured around the cables. Some mounts are self-adhesive, while others need screws to be attached to the surface.

What is a 3m cable ties bag?

Keep your wire or cable bundles organized in narrow spaces Ideal for use with miniature, intermediate and standard cable ties Bag quantity of 100 For industrial/occupational use only. Not for consumer sale or use. 3M™ Cable Tie Mounting Bases make mounting wire and cable a quick, easy and secure process.

What is a cable base used for?

These bases are most often used to hold lightweight bundles of cables, for example to hang decorative lighting or seasonal displays. They are so easy to use; you just stick them to the wall or other surface and thread through a cable tie before adding cables.
