

Paraguay solar glass

Overview

Will Pavisa & parglass develop a greenfield glass facility in Paraguay?

Pavisa and Parglass forge partnership for \$75 million Paraguay glass. The greenfield glass manufacturing facility in Paraguay will be developed by Parglass and Pavisa and will produce glass from a renewable source. Parglass and Pavisa have formed a partnership to develop a greenfield glass facility in Paraguay.

Is parglass a sustainable glass plant?

The \$75 million facility is set to open in the first quarter of 2026 and will produce glass from a 100% renewable electric source. Sergio Cibils Baumann, Director of Parglass, said the plant will be the most sustainable glass container plant in the Americas with the lowest carbon footprint. Its electrical energy will be supplied by hydropower.

What is parglass & Pavisa project?

The project is a partnership between Parglass, Pavisa and a local cement and construction company. Pavisa Executive Director, Jorge Ivan Hernandez Uribe, said the appeal of the project for the Mexican manufacturer was its sustainability element. "Glass will be made using 100% green energy with very low carbon emissions.
