

Poland 2025 Energy Storage Projects

Overview

What is Poland's energy storage subsidy?

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

How many GW of energy storage will Poland build by 2040?

The state-owned power company PGE aims to build 0.8 GW of energy storage by 2030. The EPP2040 sets a goal for around 1.0 GW of energy storage (excluding pumped storage) by 2040. Poland plans to introduce auctions for hybrid projects that combine renewable energy technologies with storage.

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion).

Can Poland co-finance electricity storage facilities?

Poland's National Fund for Environmental Protection and Water Management (NFOŚiGW) has opened a call for applications to co-finance electricity storage facilities, with funding from the Modernisation Fund. The programme has a total budget of \$1.02 billion and aims to improve grid stability and renewable energy use.
