

# Portugal Porto Solar System Battery

## Overview

---

What is the potential for solar power in Portugal?

The potential for solar power in Portugal is at an all-time high at the moment. Thanks to two successful solar tenders, the Portuguese photovoltaic (PV) market is experiencing a surge in large-scale projects.

How many MW of solar & battery energy will Endesa's Pego cluster have?

Lightsource bp is planning an 867 MWp solar and 300 MWh battery energy storage system (BESS) project and Endesa's Pego Cluster would feature 360 MW of wind capacity, 330 MW of solar, and 168.6 MW/337 MWh of storage. The Portuguese Environment Agency's Participa portal currently features two big renewables-plus-battery project proposals.

Will Lightsource BP build a solar-plus-battery site?

Lightsource bp's Sophia solar-plus-battery site - under consultation until Nov. 20 - would feature 867.148 MWp of solar generation capacity and a 300 MWh BESS comprising 60 of Chinese manufacturer Sungrow's 5 MWh, ST5015UX-4H battery containers.
