

Power supply for mobile charging cabinets in Latvia

Overview

Do I need an adapter to use a charger in Latvia?

Chargers for iPhones, Android phones and other smartphones or cell phones are usually dual voltage, so you can use them all over the world. However, it is possible you'll need an adapter to plug the charger into a Latvia outlet. Latvia uses electrical outlets and power plugs of types C & F (see images).

Can I connect my laptop charger to an electrical outlet in Latvia?

Yes, you can connect your laptop charger to an electrical outlet in Latvia as long as the outlet is compatible with the charger's voltage and plug type. In Latvia, the standard voltage is 230V and the standard frequency is 50Hz.

What type of plugs does Latvia use?

Latvia uses power outlets and plugs of types C & F. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Type C - The standard European plug.

Are there electrical outlets in Latvia?

No, the electrical outlets in Latvia are different from those in the United States. In Latvia electrical outlets of types C & F are used, while the United States has electrical outlets of types A & B. Do I need a travel adapter for Latvia?

The electrical outlets and power plugs in Latvia are of types C & F (see images).
