

Several generators in Turkmenistan solar power station

Overview

Who is developing a 100 MW solar plant in Turkmenistan?

Turkmenistan's state power corporation Turkmenenergo and United Arab Emirates Masdar and are currently developing a 100 MW solar plant in Turkmenistan. The new project follows the recent launch of a 10 MW hybrid wind-solar project and will help the country achieve the deployment of its first solar projects.

Does Turkmenistan have solar power?

According to data from the International Renewable Energy Agency, Turkmenistan had no solar or wind capacity installed as of 2021. Its total renewable energy capacity in 2021 was 2 MW, all from hydroelectric power.

How many power plants are in Turkmenistan?

As of 2010, Turkmenistan featured eight major power plants operating on natural gas, in Mary, Ashgabat, Balkanabat, Buzmeyin (suburb of Ashgabat), Dashoguz, Türkmenbaşy, Turkmenabat, and Seydi.

Will Turkmenistan achieve its first solar project?

The new project follows the recent launch of a 10 MW hybrid wind-solar project and will help the country achieve the deployment of its first solar projects. Turkmenistan has installed zero solar capacity to date.
