

Seychelles Grid-connected solar Inverter

Overview

Who installs roof top solar photovoltaic PV systems in the Seychelles?

Sine 2012, ESS has been installing rooftop solar photovoltaic PV systems in the Seychelles. Therefore, we have experience with grid-tied roof top solar PV system. Also we are an approved installer by the Seychelles Energy Commission and Public Utility Corporation.

How does solar PV work in the Seychelles?

Currently, Seychelles has a net metering policy where electricity produced by your solar photovoltaic PV systems is recorded to a separate meter. PUC then credits your electricity bill at the end of each month. Further details on how solar PV works in the Seychelles please see our Frequently Asked Questions page.

How does a hybrid system work in Seychelles?

A hybrid system uses both the grid and batteries. Currently, Seychelles has a net metering policy where electricity produced by your solar photovoltaic PV systems is recorded to a separate meter. PUC then credits your electricity bill at the end of each month.

What is a grid-connect solar photovoltaic PV system?

A grid-connect solar photovoltaic PV system are installed at your premise and use the PUC electrical grid network to feedback electricity produced by your system. For stand-alone, off-grid or battery back up system PV systems which are independent of the PUC network and use battery storage see our off-grid solar PV page.

Seychelles Grid-connected solar Inverter

Grid-Connected Rooftop Photovoltaic Systems (PV) Project -

...

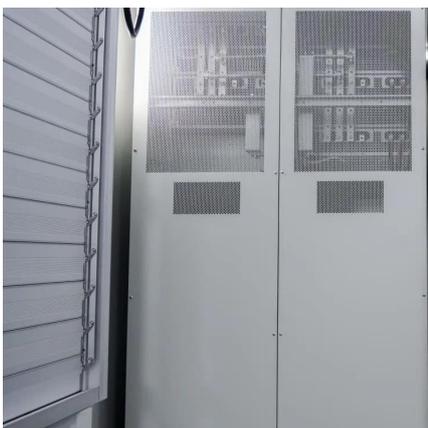

Expected Outcome The project aim is to increase the use of grid-connected rooftop photovoltaic (PV) systems as a sustainable means of generating electricity, with the following ...
