

Short circuit breaker factory in Uk

Overview

What is air circuit breaker?

Air Circuit Breakers provide protection and switching for electrical equipment from 630A to 6300A. Available in three different sizes, in 3 or 4 pole and as a fixed or withdrawable design. Techna circuit protection - miniature circuit breakers and types of residual current circuit breaker (GFCI) including Type A, Type B, UL489.

What does a circuit breaker do?

A circuit breaker is a safety device that interrupts abnormal current flow to protect electrical systems from damage. Unlike fuses, which must be replaced after operation, circuit breakers can be reset and used multiple times, providing long-term protection and control.

What is a RCBO circuit breaker?

Available in 2 or 4 pole and in current ratings from 25A to 125A. 6kA and 10kA Residual Current Circuit Breakers with Overcurrent Protection (RCBOs) combine the functionality of a RCCB and MCB in one device, protecting against residual current (earth leakage) faults as well as overcurrent and short circuit protection.

What types of circuit breakers are available?

Circuit breakers, Thermal circuit breakers, Thermal magnetic circuit breakers and other passive components from industry-leading manufacturers, in stock and ready to ship today. The right components for tomorrow's success.
