

# Single supercapacitor manufacturer in Rotterdam the Netherlands

## Overview

---

What is a supercapacitor?

A supercapacitor is a double-layer capacitor that has very high capacitance but low voltage limits. Supercapacitors store more energy than electrolytic capacitors and they are rated in farads (F). Supercapacitors store electrical energy at an electrode-electrolyte interface.

What is the global supercapacitor market?

Supercapacitors, also known as ultracapacitors, are becoming a critical component in modern energy storage solutions. According to Statistics MRC, the Global Supercapacitor Market is accounted for \$5.08 billion in 2024 and is expected to reach \$11.16 billion by 2030 growing at a CAGR of 14.0% during the forecast period.

Where can I buy super & ultra capacitors?

Here at Distrelec, we stock an extensive range of super & ultra capacitors from highly regarded manufacturers such as Eaton, Elna, KEMET, Panasonic, SPSCAP, Vishay, and Würth Elektronik. Capacitors are widely used in a vast range of electronics applications, with the function of storing electrical charge.

What are the best EV supercapacitors?

Gold Capacitors: Panasonic's gold capacitors offer high energy density and stability, making them ideal for backup power in electronic devices. EV Supercapacitors: These are specifically designed for automotive applications, providing efficient energy management for electric and hybrid vehicles.
