

Solar Tempered Glass

Overview

What is Targray solar glass?

Targray supplies solar PV glass materials engineered to enhance the conversion efficiency and power output of solar photovoltaic panels. Our product portfolio features tempered, ultra-clear solar glass solutions with anti-reflective coating that diminishes reflectivity and improves light transmission.

What is photovoltaic smart glass?

Photovoltaic glass, also known as solar glass or transparent solar panels, is a type of smart glass that uses embedded photovoltaic cells to convert sunlight into electricity to generate electricity.

What are ultra-clear patterned solar PV glass solutions?

Ultra-clear, patterned solar PV glass solutions engineered to help maximize light transmission while minimizing absorption and reflectivity – characteristics which contribute to improving overall conversion efficiency in solar cells.

What is Photovoltaic Glass?

Unlike traditional solar panels that absorb visible light, photovoltaic glass converts primarily ultraviolet (UV) and infrared light into electricity, making it suitable for windows, facades and other transparent surfaces of buildings, vehicles and equipment.
