

Solar cell module production plant

Overview

How many solar modules TP solar has produced in Tamil Nadu?

TP Solar Ltd, the manufacturing arm of Tata Power and a wholly owned subsidiary of Tata Power Renewable Energy Ltd (TPREL), has surpassed 4 GW of solar module production at its Tamil Nadu facility. As of May 31, 2025, the plant has produced 4,049 MW of solar modules and 1,441 MW of solar cells.

How many solar modules are produced at Tirunelveli plant?

Having a total cell and module manufacturing capacity of 4.3GW, the module production line at the Tirunelveli plant was commissioned in October 2023 and has produced 1250MW of solar modules till date. The state-of-the-art facility has a 4.3GW capacity, making it the largest single-location solar cell and module plant in India.

What is India's largest single-location solar manufacturing facility?

The new 4.3 GW solar cell and module manufacturing plant is India's largest single-location solar manufacturing facility, equipped with cutting-edge TOPCon and Mono Perc technologies.

How many solar cells does Tata Power produce?

Tata Power's manufacturing arm TP Solar has produced 4,049 MW of PV modules and 1,441 MW of cells as of May 31, 2025.
