

Tender for Ashgabat BESS Telecom Energy Storage Project

Overview

Why did Argentinian government open bids for the almagba tender?

This week, the Argentinian government opened bids for the AlmaGBA tender, initiated in February 2025 to procure 500 MW of battery energy storage system (BESS) capacity for critical nodes in the Buenos Aires Metropolitan Area (AMBA) grid, enhancing reliability during peak demand.

What is Argentina's first energy storage tender?

(USD 1.0 = EUR 0.860) Loading. Argentina's first energy storage tender has lured proposals for 1,347 MW of combined capacity, indicating a high investor interest that significantly exceeded the 500-MW target.

What does the almagba tender mean for Argentina?

The AlmaGBA tender not only signals growing investor confidence in Argentina's energy transition but also sets the stage for grid resilience and renewable integration. Evaluation of submissions is now underway, with final selections expected to shape the country's storage landscape for years to come.

When should a battery energy storage system be commissioned?

The battery energy storage systems (BESS) should be commissioned within 12-18 months. The international open call, dubbed Almacenamiento GBA -AlmaGBA, was launched in February as part of a series of measures aimed at guaranteeing the reliability of energy supply in Argentina. (USD 1.0 = EUR 0.860) Loading.
