

The first solar energy storage project in Johannesburg South Africa

Overview

What is solar & storage live Africa?

Solar & Storage Live Africa is Africa's largest renewable energy exhibition that celebrates the technologies at the forefront of the transition to a greener, smarter, more decentralised energy system. Your free ticket gives you access to the premium conference, the exhibition and networking with thousands of industry leaders.

Where is South Africa's largest solar power plant located?

The 100MW Redstone concentrated solar thermal power plant is located in the Northern Cape province of South Africa and is the country's largest of its kind. The project employs tower solar thermal technology with a total mirror area exceeding 1 million square meters.

What is Redstone solar thermal power project?

Rendering of Redstone Solar Thermal Power Project Northern Cape, South Africa. The first of its kind in Africa, the Redstone Solar Thermal Power Project features molten salt energy storage technology in a tower configuration with the capability to support South Africa's demand for energy when it's needed most – day and night.

What is a 200 MW solar plant in South Africa?

The 200 MW Florida Solar plant is one of the solar projects in South Africa's 7th REIPPPP round. This project is developed by a consortium of Red Rocket South Africa, MBY Energy, and Jade-Sky Energy.
