

# Three grid energy storage projects in Marseille

## Overview

---

Where is France's largest battery energy storage system located?

TagEnergy, in partnership with Tesla, has officially begun construction on France's largest battery energy storage system (BESS) in Cernay-lès-Reims, located in the department of Marne .

Will ABN AMRO be the largest battery energy storage system in France?

Dan Dorner, Chief Commercial Officer Corporate Banking said: "We are happy to have supported this landmark project, which will become the largest battery energy storage system in France upon its completion. This marks ABN AMRO's first BESS transaction in France, and builds upon our broader BESS and renewable energy track record.

How is the Cernay-lès-Reims battery project funded?

The Cernay-lès-Reims battery project has been made possible through innovative financing, supported by a banking consortium that includes ABN AMRO, NORD/LB, and Caisse d'Épargne CEPAC.

How much electricity will the Marne battery system store?

Once completed in late 2025, the battery system will store enough electricity to cover 20% of the residential needs in the Marne department, home to approximately 565,000 residents.
