

USA New York Electric Energy Storage Product Solution

Overview

What is the New York battery & energy storage technology consortium?

The New York Battery and Energy Storage Technology (NY-BEST™) Consortium, established in 2010, serves as an expert resource for energy storage-related companies and organizations looking to grow their business in New York State.

What is New York State Energy Research & Development Authority (NYSERDA)?

The New York State Energy Research and Development Authority (NYSERDA) today announced over \$5 million is now available to support innovative energy storage technologies in New York that can harness and provide stored energy to New York's electric grid.

Can energy storage solutions deliver more reliable electricity to New York communities?

NYSERDA President and CEO Doreen M. Harris said, "The possibilities created by innovative energy storage solutions can safely deliver more reliable electricity to New York communities as part of building an affordable and resilient zero-emission future.

Are EnergySage storage installers pre-screened?

At EnergySage, we care about connecting shoppers to high-quality companies. As such, any storage installers we list above are active on the EnergySage Marketplace in New York and pre-screened by our team. What does it mean to be "pre-screened"?

We evaluate every storage installer to ensure that they'll provide quality service to EnergySage users.
